## **Genders, Transgenders and Sexualities in Japan (Routledge Studies in Asia's Transformations)**

Incorporating Japanese language materials and field-based research, this compelling collection of essays takes a comparative look at the changing notions of gender and sexual diversity in Japan, considering both heterosexual and non-heterosexual histories, lifestyles and identities.

Written by key Japanese authors and Western scholars the volume examines how non-conformist individuals have questioned received notions and challenged social norms relating to sex and gender. The chapters depict the plurality of gender positions; from housewives opposed to gender roles within marriage to heterosexual men wishing to be more involved in family life. Including material not previously published in English, this volume gives an overview of the important changes taking place in gender and sexuality studies within Japanese scholarship.
