Even with years working as a pediatrician, Shelly Vaziri Flais, MD, FAAP, was nervous about what lay ahead when she was told she was pregnant with twins. Now, several years into parenting her twin boys, Dr Flais is sharing her wisdom and experience as a mom and her expertise as a doctor to help other parents prepare for and raise multiples with confidence. With insightful stories from her own experiences coupled with important information only a pediatrician can offer, Raising Twins will help parents

Prepare for the arrival of their twins

Survive the first few days and weeks with advice on sleep schedules, feeding choices, and finding support

Develop strategies to help successfully manage (and enjoy!) the first year of their twins' lives

Negotiate the toddler years, including potty training, language development, big-kid beds, budgets, and discipline

Understand the world of their twins as they become preschoolers, including socialization inside and outside the family, encouraging individualism, discipline and sleep issues.
