Crime Against Persons with Disabilities 2009-2013 - Statistical Tables U.S. Department of Justice

The statistical tables in this report detail the level and rates of nonfatal violent victimization against persons with and without disabilities, describe the types of disabilities, and compare victim characteristics. They also include information on the crime incident, such as time of the crime, police notification of the crime, and information on victim services. With the exception of figure 1, all estimates are based on 2-year rolling averages centered on the most recent year. For example, estimates reported for 2013 represent the average estimates for 2012 and 2013. This method improves the reliability and stability of estimate comparisons over time.
