Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science)

We presented an approach for the visual discrimination of children (3-5 years old) from adults using stride-based properties of their walking style. Trajectories of marked head and ankle positions for six children and nine adults were used to compute the relative stride and stride frequency for each walker at different speeds. The distinction between child and adult for these features is quite strong and reduces the task of categorization to a linear discrimination test. Using a trained two-class linear perceptron, we were able to achieve a correct classification rate of 93-95% for our dataset. Given that only two motion features were used to characterize and differentiate children from adults, the result is quite encouraging. The use of natural modes as a means of visual categorization provides a useful bottom-up framework for the classification and recognition of humans in motion. References 1. A. Baumberg and D. Hogg. From reader reviews:

Nicholas Hess:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each e-book has different aim or goal; it means that book has different type. Some people experience enjoy to spend their a chance to read a book. They are reading whatever they acquire because their hobby is usually reading a book. What about the person who don't like examining a book? Sometime, man or woman feel need book when they found difficult problem or exercise. Well, probably you should have this Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science).

Anderson Austin:

Here thing why this particular Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) are different and trusted to be yours. First of all reading through a book is good however it depends in the content of computer which is the content is as yummy as food or not. Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) giving you information deeper since different ways, you can find any guide out there but there is no e-book that similar with Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science). It gives you thrill reading journey, its open up your own eyes about the thing that will happened in the world which is maybe can be happened around you. You can easily bring everywhere like in playground, café, or even in your method home by train. In case you are having difficulties in bringing the published book maybe the form of Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) in e-book can be your choice.

Ashley Washington:

The reserve untitled Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) is the book that recommended to you to see. You can see the quality of the e-book content that will be shown to you actually. The language that author use to explained their ideas are easily to understand. The article writer was did a lot of exploration when write the book, therefore the information that they share to you personally is absolutely accurate. You also can get the e-book of Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) from the publisher to make you far more enjoy free time.

Virgil Santamaria:

Reading a e-book make you to get more knowledge from that. You can take knowledge and information from a book. Book is published or printed or created from each source that will filled update of news. Within this modern era like at this point, many ways to get information are available for a person. From media social such as newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just seeking the Audio- and Video-Based Biometric Person Authentication: Third International Conference, AVBPA 2001 Halmstad, Sweden, June 6-8, 2001. Proceedings (Lecture Notes in Computer Science) when you necessary it?
