Transnational Spaces (Routledge Research in Transnationalism)

Transnational Spaces (Routledge Research in Transnationalism)

Social relations in our globalising world are increasingly stretched out across the borders of two or more nation-states. Yet, despite the growing academic interest in transnational economic networks, political movements and cultural forms, too little attention has been paid to the transformations of space that these processes both reflect and reproduce.

Transnational Spaces takes an innovative perspective, looking at transnationalism as a social space that can be occupied by a wide range of actors, not all of whom are themselves directly connected to transnational migrant communities.
