The first edition of **Making Sense of Management** set out to provide a fresh perspective on management that was both broad and critical, exploring how the disruptive and constructive potential of critical theory can be realized in organizations. Along the way, it has proven to be a landmark contribution to critical management studies. As well as setting the agenda for current research, this revised edition has been written to appeal to a broader readership and open up critical theory for the general management student.

New sections on HRM, brands, identity, ethics and leadership have been fully developed alongside the rest of the text to reflect the current state of play in critical management studies.

The second edition of **Making Sense of Management** will be of interest to students and researchers in critical management studies and students on general management courses with a critical perspective.
