## Challenging Concepts in Emergency Medicine: Cases with Expert Commentary

Providing the inside track on how the experts approach and deal with real-world clinical scenarios, Challenging Concepts in Emergency Medicine selects specific challenging cases that are encountered in everyday clinical practice but do not have simple answers. A case-based guide to challenging areas in emergency medicine, this book covers the core and sub-specialty areas, in particular the often grey areas of intensive care and paediatric emergency medicine.

Complex cases are comprehensively examined from a multidisciplinary perspective with detailed consideration given to management options and the contemporary evidence base behind these decisions.

An effective revision aid for MCEM and FCEM and a reference during workplace-based assessments, Challenging Concepts in Emergency Medicine highlights critical information through the use of boxed features: 'Learning points', 'Clinical tips', 'Evidence base', and 'Future advances'. Each chapter has been reviewed by a national or international expert in the field and they have provided an 'Expert commentary', giving a unique insight into how today's opinion leaders confront and deal with the very same management challenges that all clinicians can potentially face on a daily basis.

Containing summaries of current national and international guidelines, this book is ideal for continuing medical education and revalidation as well as for trainees preparing for examinations.

#### **Marion Driskell:**

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring as well as can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know

that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Challenging Concepts in Emergency Medicine: Cases with Expert Commentary can make you sense more interested to read.
