Response to Intervention in the Core Content Areas: A Practical Approach for Educators Jeffrey P. Bakken

"Response to Intervention in the Core Content Areas: A Practical Approach for Educators" addresses the needs of educators across the spectrum of students and in different content area classrooms. Chapters address the concept of RtI, early identification, more intense instruction, assessment, and making data-based decisions to form a foundation for the reader before moving on to focus on different types of students (English language learners and culturally and linguistically diverse students) and how RtI can be implemented in the different content areas (reading, writing, math, science, and social studies). Each chapter is written by an expert in the field and includes a case study related to real teacher experiences to help educators understand the process of RtI.
