Teaching Science in Culturally Relevant Ways:Ideas from Singapore Teachers

This book encapsulates the vision of Singapore science educators to bring the local elements of the country to bear in the science curriculum. In experimenting with familiar materials used and consumed in our everyday lives, and applying scientific knowledge to analyse and provide explanations of the observed phenomena the editors and contributing authors hope to introduce culturally relevant science activities for enactment in the formal and informal science curriculum. This work is premised on the collective belief that learning science in culturally relevant ways underscores the importance of one's culture embodied with *funds of knowledge* to make the learning of science meaningful. They see this as a step toward achieving the broader and long-term goal of developing a scientifically literate citizenry.
