Only Uncle John could make the Green Movement this much fun! This timely edition takes an even-handed look at the trials and tribulations (and downright goofiness) of environmentalism. You'll learn how landfills operate, where plastic goes to die, how to understand food labels, how to save some green around the house, and the lowdown on all the alternative forms of energy currently being bandied about (even beer power). And we cover the *really* important stuff, such as: Who has the bigger carbon footprint--Fred Flintstone or George Jetson? And lots more, including . . .

Lady Bird Johnson's quest for a prettier nation

Whatever happened to the electric car?

Paper vs. plastic: A fight to the death

Not-so-green Hollywood movies

The true meaning of "organic"

Ancient environmentalists

Living on an Amish farm

NOISE POLLUTION!

Animals that recycle

The power of poo

*And much, much more!*
