Did you know?

A baby's brain is 250% more active than that of an adult.

- The networking of the brain's synapses is nearly complete after the first 3 years of life.
- Giving your baby stimulating experiences encourages brain development that will prepare your baby for successful learning in the future.

Filled with developmental games based on the latest brain research, *Baby Smarts* helps you build your baby's brain power, one activity at a time!

*Baby Smarts* is divided into four chapters, each representing a three-month period. Each chapter begins with a chart that helps teachers and parents anticipate the typical developmental milestones for that age. The corresponding games and activities develop and reinforce the skills babies need to reach those milestones. Each activity in *Baby Smarts* uses common materials—there's no need for expensive toys or props. Every activity in *Baby Smarts* builds the foundation for future learning!
