Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series)

Mohamed M. Shoukri

Agreement among at least two evaluators is an issue of prime importance to statisticians, clinicians, epidemiologists, psychologists, and many other scientists. Measuring interobserver agreement is a method used to evaluate inconsistencies in findings from different evaluators who collect the same or similar information. Highlighting applications over theory, *Measure of Interobserver Agreement* provides a comprehensive survey of this method and includes standards and directions on how to run sound reliability and agreement studies in clinical settings and other types of investigations.

The author clearly explains how to reduce measurement error, presents numerous practical examples of the interobserver agreement approach, and emphasizes measures of agreement among raters for categorical assessments. The models and methods are considered in two different but closely related contexts: 1) assessing agreement among several raters where the response variable is continuous and 2) where there is a prior decision by the investigators to use categorical scales to judge the subjects enrolled in the study. While the author thoroughly discusses the practical and theoretical issues of case 1, a major portion of this book is devoted to case 2. He explores issues such as two raters randomly judging a group of subjects, interrater bias and its connection to marginal homogeneity, and statistical issues in determining sample size.

Statistical analysis of real and hypothetical datasets are presented to demonstrate the various applications of the models in repeatability and validation studies. To help with problem solving, the monograph includes SAS code, both within the book and on the CRC Web site. The author presents information with the right amount mathematical details, making this a cohesive book that reflects new research and the latest developments in the field.

From reader reviews:

Paul Birch:

Hey guys, do you want to find a new book to see? May be the book with the name Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) suitable to you? Often the book was written by well-known writer in this era. The actual book untitled Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) is the main of several books that everyone read now. This particular book was inspired many people in the world. When you read this book you will enter the new way of measuring that you ever know previous to. The author explained their thought in the simple way, therefore all of people can easily to know the core of this publication. This book will give you a wide range of information about this world now. In order to see the represented of the world with this book.

Doreen Looney:

Beside that Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) in your phone, it could possibly give you a way to get more close to the new knowledge or facts. The information and the knowledge you might got here is fresh through the oven so don't always be worry if you feel like an outdated people live in narrow town. It is good thing to have Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) because this book offers for you readable information. Do you often have book but you do not get what it's exactly about. Oh come on, that will not end up to happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, including treasuring beautiful island. So do you still want to miss it? Find this book and read it from currently!

Charles Holland:

This Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) is brand new way for you who has interest to look for some information as it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know otherwise you who still having little bit of digest in reading this Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC Biostatistics Series) can be the light food to suit your needs because the information inside that book is easy to get by anyone. These books acquire itself in the form which is reachable by anyone, yep I mean in the e-book application form. People who think that in publication form make them feel sleepy even dizzy this guide is the answer. So there is not any in reading a book especially this one. You can find what you are looking for. It should be here for an individual. So, don't miss it! Just read this e-book sort for your better life along with knowledge.

Cathy Kerby:

You can obtain this Measures of Interobserver Agreement and Reliability (Chapman & Hall/CRC

Biostatistics Series) by browse the bookstore or Mall. Merely viewing or reviewing it might to be your solve issue if you get difficulties to your knowledge. Kinds of this publication are various. Not only through written or printed but in addition can you enjoy this book through e-book. In the modern era just like now, you just looking of your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still upgrade. Let's try to choose right ways for you.
