## **The Norwegian Fjords** A. Heaton Cooper

The fjords of Norway, by their unique charm, annually attract an increasing number of English and American tourists.

This volume, the artist hopes, may be found useful to the traveller who desires a more intimate acquaintance with the country and its people than may be acquired from a casual visit to its shores.

It is the outcome of periodical visits to Norway extending over the last fifteen years, including two winters spent among the fjords and mountains of that delightful and interesting country.
