Church without Walls: A Global Examination of the Cell Church Michael Green

This book is for church leaders, missionaries, evangelists, and all those who wish to learn about this refreshing way of planting churches and becoming dynamic cells of life for Jesus Christ. The decline of the traditional church in the West has met with the emergence of new ways of being the people of God. One of these is the phenomenal growth of cell churches--small groups of committed Christians meeting in homes and spawning new cells with enthusiasm. While the cell church movement is still small in most Western countries, it is likely to become a major player in the church of the future. In countries like China, Singapore, and Malaysia it is the most popular vehicle for their extraordinary explosion of Christianity.
