Cancers gynécologiques pelviens (French Edition)

Xavier Carcopino, Jean Levêque, Didier Riethmuller

Cancers gynécologiques pelviens (French Edition) Xavier Carcopino, Jean Levêque, Didier Riethmuller
Les cancers gynécologiques pelviens regroupent différentes entités à l'épidémiologie et à la prise en charge très différentes. Cet ouvrage d'une grande actualité, rédigé par les meilleurs spécialistes de la discipline, apporte un éclairage exhaustif, théorique et technique, sur les principes thérapeutiques de la cancérologie pelvienne en traitements médicaux, en radiothérapie et en chirurgie.

Dans un premier temps, les auteurs abordent l'anatomie pathologique « utile au chirurgien », l'épidémiologie descriptive et analytique et les aspects pré et per-thérapeutiques : biologie, imagerie, génétique et stadification qui en découle.

Dans un deuxième temps, les aspects thérapeutiques généraux et spécifiques sont explicités (radiothérapie, traitements médicaux, chirurgie).

Enfin, les cas particuliers tels que les tumeurs rares et à malignité limitée ou les tumeurs lors de la grossesse ainsi que les complications et les éventuels problèmes post-opératoires tels que douleur, sexualité ou surveillance post-thérapeutique sont développés pour offrir au praticien toutes les réponses nécessaires à une prise en charge optimale.

Cet ouvrage pluridisciplinaire associant différents spécialistes (gynécologue, oncologue, chirurgien, anatomopathologiste et spécialiste de l'imagerie médicale), s'adresse à la fois aux praticiens en cours de spécialisation (internes et assistants), aux praticiens non chirurgicaux et aux chirurgiens confirmés amenés à prendre en charge des femmes atteintes de cancers gynécologiques pelviens.
