IQ: A Smart History of a Failed Idea Stephen Murdoch

Advance praise for

IQ A Smart History of a Failed Idea

""An up-to-date, reader-friendly account of the continuing saga of the mismeasure of women and men.""
—Howard Gardner, author of *Frames of Mind* and *Multiple Intelligences: New Horizons*

""The good news is that you won't be tested after you've read Stephen Murdoch's important new book. The better news is that *IQ: A Smart History of a Failed Idea* is compelling from its first pages, and by its conclusion, Murdoch has deftly demonstrated that in our zeal to quantify intelligence, we have needlessly scarred—if not destroyed—the lives of millions of people who did not need an IQ score to prove their worth in the world. *IQ* is first-rate narrative journalism, a book that I hope leads to necessary change.""
—Russell Martin, author of *Beethoven's Hair*, *Picasso's War*, and *Out of Silence*

""With fast-paced storytelling, freelance journalist Murdoch traces now ubiquitous but still controversial attempts to measure intelligence to its origins in the late nineteenth and early twentieth centuries. . . . Murdoch concludes that IQ testing provides neither a reliable nor a helpful tool in understanding people's behavior, nor can it predict their future success or failure. . . . A thoughtful overview and a welcome reminder of the dangers of relying on such standardized tests.""
—Publishers Weekly

""Stephen Murdoch delivers a lucid and engaging chronicle of the ubiquitous and sometimes insidious use of IQ tests. This is a fresh look at a century-old and still controversial idea—that our human potential can be distilled down to a single test score. Murdoch's compelling account demands a reexamination of our mania for mental measurement.""
—Paul A. Lombardo, author of *Three Generations, No Imbeciles: Eugenics, the Supreme Court & Buck v. Bell*

Raymond Dahms:

As a college student exactly feel bored in order to reading. If their teacher expected them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this IQ: A Smart History of a Failed Idea can make you truly feel more interested to read.

Louise Fulghum:

What is your hobby? Have you heard this question when you got pupils? We believe that that query was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And you know that little person similar to reading or as reading through become their hobby. You should know that reading is very important and also book as to be the matter. Book is important thing to add you knowledge, except your current teacher or lecturer. You will find good news or update in relation to something by book. A substantial number of sorts of books that can you take to be your object. One of them is actually IQ: A Smart History of a Failed Idea.
